Our Ophthalmic Range with our Clip-on

Serengeti launches its very first clip-on equipped with the original Serengeti 3-in-1 Mineral lens . Available with its famous Driver and 555nm lens, our clip-on has been conceived and designed to perfectly fit with below selected ophthalmic frames. Serengeti clip-on has not been thought as an accessory but as a real part of the frame, so we brought an extreme attention to details exactly as we do when we create our ophthalmic and sunglasses frames.

The only one clip-on available on the market with Mineral 3-in-1 lens.
