VISION BEYOND

Confidence is a state of mind in which we seek to free ourselves. For many of us, it is a trigger to progress, to move forward. It is a goal achieved through training, failure, perseverance and success.

Confidence is not about being one hundred percent certain, it's about **seeing possibilities instead of obstacles**, opportunities instead of limitations. Once you've gained confidence, you are powered by **a vision** that takes you further than you ever thought possible.

Bollé designs gear with an eye for details that make all the difference, enabling you to venture further than ever before :

**BEYOND BOUNDARIES,
BEYOND WHAT OTHERS SEE,
BEYOND YOURSELF.**

The most aerodynamic, ventilated and lightweight eco-designed cycling helmet. Ideal for gravel, the ECO AVIO challenges the traditional way to make helmets with 50% recycled EPS and 100% recycled webbing. Ultra-lightweight thanks to its EPS design, lightweight in-molded components and optimized fit system, it features MIPS® AIR, MIPS®'s most lightweight brain protection system. Super ventilated, the ECO AVIO is designed to align both deep internal channeling and large front vents with small exhaust ports that create low pressure at the rear of the helmet for extra air circulation. Developed to make you faster with cutting-edge aerodynamics, the ECO AVIO has an optimized low-profile shape and is equipped with the AVID Aero Progressive EPS to direct airflows and manage impact energy. Conceived to reduce drag thanks to its Kamm Tail at the rear, the ECO AVIO is all about details with an Opti-Dock designed to securely hold all-sized sunglasses and even a ponytail compatibility. A new generation of helmets with no compromise.

The same qualities that make our helmet lightweight, comfortable, and safe also make it eco-friendly. With the REACT, we are challenging the traditional way to make helmets, replacing some plastic and petroleum products by organic or recycled material to reduce the environmental impact. We have added cork to the EPS, used recycled plastics for the shell, recycled nylon plastic parts, webbing and padding fabric. It's our first step to respond to the needs of cyclists who want to pursue an active lifestyle in the city while doing their part for the planet.

PLATINUM

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti fog and anti scratch protection.

With **Phantom**, Bollé brings this expertise to everyone.

A perfect protection with a more performing anti fog and an anti scratch that last 40% more than the standard.

LIGHTWEIGHT

NXT[™] material is close to the lightest lens material available today, at 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

AVAILABLE IN PRESCRIPTION

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

HIGH IMPACT RESISTANCE

NXT[™] lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT[™] is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

OPTICAL CLARITY

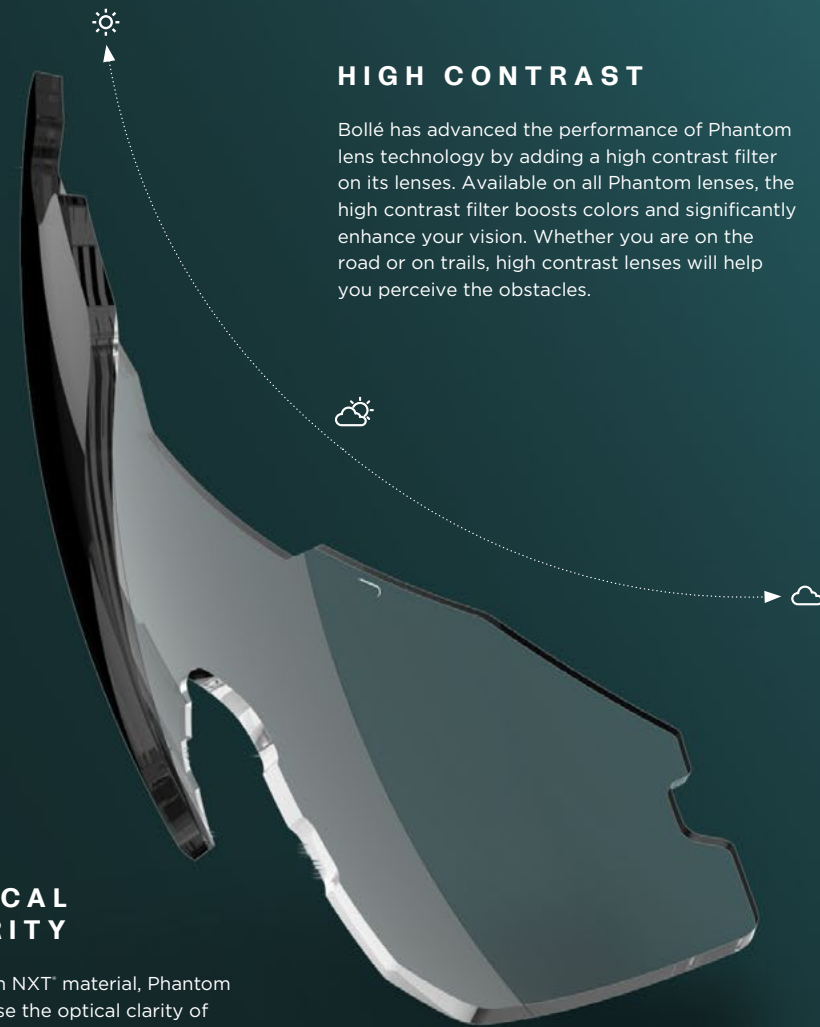

Made with NXT[™] material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT[™] material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

PHOTOCHROMIC PERFORMANCE

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.1 to cat.3. Enhanced vision whatever the conditions.

HIGH CONTRAST

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colors and significantly enhance your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.
