EKOFRIENDLY

RELAX ECO FRIENDLY BIO

We present you a sunglasses model that offer a greener alternative with reduced use of plastic. Our frames are made from 45% natural-based materials, significantly reducing fossil material consumption and CO₂ emissions. We use **G850** in the production of our models, which replaces phthalate-based plasticizers with organic additives. This contributes to a cleaner atmosphere, water and soil. Choose RELAX and support a sustainable future!

Carol
R0369C

Finn
R1156A

RELAX ECO FRIENDLY FISHING NET

We offer a model made from **recycled fishing nets** – an ecological step towards a sustainable future. These sunglasses are not only fashionable, but also contribute to the protection of the oceans. By using fishing nets that would otherwise pollute the sea, we are reducing plastic waste and promoting a cleaner and healthier environment. Choose sunglasses that combine style and environmental responsibility. Wearing them not only makes you look great, but also makes you feel good about helping to **protect our planet**.

Adel
R0368A

RELAX ECO FRIENDLY RECYCLED

This model is made of **eco-friendly plastic**. It is a material that is carefully processed from recycled plastic materials, making it an eco-friendly choice with less impact on the environment. Using eco-friendly plastic reduces the consumption of fossil fuels, greenhouse gas emissions and contribute to reducing waste. Get this model and support a sustainable future!

RELAX ECO FRIENDLY BIO

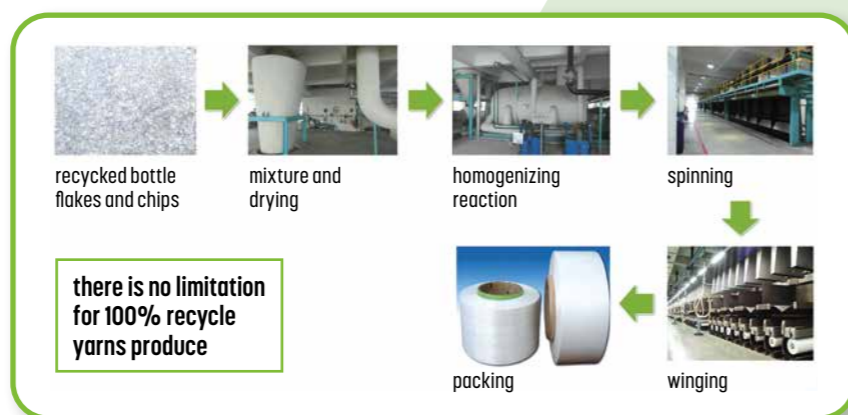

This is a sunglasses model made of **bioacetate**, thus classifying to our range of sustainable products. Bioacetate mixed with bio-softeners from renewable sources is not only biodegradable but also recyclable, contributing to a sustainable lifestyle. Thanks to the special formulation, our sunglasses break down quickly and safely, with no negative impact on the planet. Choose our eco-friendly sunglasses and support a healthier planet.

Lyra
R0371A

THE PRODUCTION PROCEDURE OF RECYCLED YARNS

The ECO friendly microfibre bag is made from recycled material = plastic is ground into so called flakes/chips and then made into fibre from which the fabric is woven.

WHAT'S NEW

Our women's elegant **CAROL model** is designed for women who are not afraid of bold style and like to express their personality. With an emphasis on sophisticated design and fine details, these sunglasses combine elegance with boldness. Each model is designed to accentuate the unique beauty of the wearer while providing maximum comfort. **We are not afraid to be bold**, which is why we bring you models that go beyond the boundaries of traditional elegance. These sunglasses are the perfect choice for those who want to stand out while staying true to their refined style.

Carol
R0396

Our sunglasses collection **offers a large selection of outdoor models** that are ideal for nature lovers and sportsmen. Such sunglasses are designed to provide maximum eye protection for all outdoor activities, whether you are heading to the mountains or the woods. With advanced technologies such as polarization and UV filters, they ensure clear and comfortable vision even in challenging conditions. Durable and ergonomically designed frames are adapted for long-term wear in the field. These sunglasses are the perfect choice for those who want to combine style with functionality during their adventures.

Peri
R5432

Bahamas
R2350

St. Barts
R2349

FLAT TOP St. Barts and Bahamas sunglasses are iconic sunglasses that feature a straight top frame line, giving them a distinctive and modern look. This design is ideal for those who want to stand out with their bold and confident style. Their wide frame provides great eye protection from the sun while acting as a stylish fashion accessory. **FLAT TOP** glasses often combine retro inspiration with modern elements, making them a favourite among fashion enthusiasts. They are the perfect choice for those who are not afraid of eccentricity and want to set trends.

Nargo
R5318

Our **NARGO sunglasses** come in fresh new colours that give classic models a modern twist. These colour variations bring energy and personality without losing the timeless elegance that our customers have come to love. Timeless models are carefully selected for their versatility and style that will last for years. The combination of innovative colors and proven designs creates sunglasses, that are both stylish and functional. They are the perfect choice for those looking for a modern expression without giving up their favourite classics.

One lens models with polarization offer a great combination of style and functionality, ideal for those who want maximum eye protection. Polarization effectively eliminates glare and provides crystal clear vision even in bright sunlight. This modern sunglasses design protects not only your eyes, but also provides wider coverage of your face. We offer them in a **wide range of colours** so you can choose the one that best matches your personal style. One lens models are not only practical but also distinctively stylish, making them the perfect accessory for sport and leisure.

Dingo
R5435

Sunglasses with a dioptric clip are becoming more and more popular due to their versatility and practicality. These frames allow easy switching between sunglasses and dioptric lenses, making them ideal for everyday wear and sports activities. The diopter clip adds convenience by eliminating the need to wear multiple glasses while maintaining a stylish look. Plus, they provide excellent eye protection against the sun without sacrificing visual acuity. Their flexibility makes them a great choice for people looking for a functional and aesthetic solution in one.

Accessories

POLARIZED

Proven technology reducing transmission of reflected light from horizontal surfaces such as snow, water or wet asphalt. Polarized lenses greatly increase visual acuity, reduce glare and eliminate annoying reflections. Polarization helps eyes to reduce their fatigue. Suitable for sport, driving, water activities.

GRADIENT LENSES

Lenses shaded from top to bottom, where the upper part is darker and the lower part is lighter. Looking through such lenses is more comfortable, natural and handy e.g. while driving. They allow great sight, protect your eyes from the light from above while you see undistorted what is below you. They look fantastic and are elegant because they bring a certain depth to one's features.

PLATINUM LENSES

Lenses covered in a special abrasion resistant mirror layer which significantly reduces the amount of light reaching your eyes by simply reflecting most of it. This means less strain on your eyes, making it easier for you to see. You can choose from all colours of the rainbow. Besides the platinum treatment is wipe-resistant.

IMPACT PROTECTION

Impact protection technology uses a nearly unbreakable lens material that provides a high level of eye protection. This material resists impact and minimizes the risk of lens damage or breakage during sports and outdoor activities. This makes the glasses safe and reliable even in challenging conditions.

TECHNOLOGY / FRAMES

TR90

TR90 technology uses a special thermoplastic material that is extremely lightweight, flexible and durable. This material provides a high level of wearing comfort as it easily conforms to the shape of the head while withstanding even the most demanding conditions. Sunglasses made of TR90 are also resistant to impact and deformation, making them ideal for sports and outdoor activities.

FLEXIPAD

The Flexi Pad technology ensures maximum comfort thanks to flexible nosepads that adapt to the shape of the face. Thanks to this technology, the sunglasses fit perfectly and minimize pressure on the nose, which increases comfort during long-term wear. In addition, the Flexi Pad ensures the stability of the sunglasses even during sports activities.

X-CHANGE

X-Change technology allows for easy and quick lens exchanges to suit the current conditions or needs of the user. Thanks to this innovation, you can adapt the sunglasses to different lighting conditions or activities without complicated handling. X-Change provides maximum flexibility and comfort, whether you're in the mountains or by the water, or in the city.

ANTISLIP

Anti-Slip technology ensures that the sunglasses stay firmly in place thanks to special non-slip elements on the nosepads and earpieces. This surface increases the stability of the sunglasses, whether during sports or normal wear, and prevents slipping even when sweating or sudden movements. Anti-Slip technology provides comfort and confidence that the sunglasses will stay in place in any situation.

RELAX

RELAX

TECHNOLOGY

SIZE XL

The XL size sunglasses are designed for wider faces to ensure a comfortable fit without uncomfortable pressure. This larger size not only offers better eye coverage, but also a modern and distinctive look.

SOFT CASE

The soft microfiber cleaning pouch protect sunglasses against scratches. FREE with every pair of sunglasses.

SIZE XS

The XS size sunglasses are ideal for small or narrow faces where they provide a comfortable and secure fit. Their compact size provides a sleek look and a perfect fit without excessive protrusion.

CE – SAFETY PRO

Guaranteed safety of Relax sunglasses.

100% UV 400

Sunglasses with 100% UV400 protection provide complete protection against harmful ultraviolet rays, protecting the eyes from UVA and UVB rays. This level of filtration guarantees, that your eyes will be protected from potentially dangerous sunlight, whether you are wherever you are in the sun.

**GUARANTEE
UV 400nm**

DESIGNED IN CZ

All Relax products are developed and designed in the Czech Republic.

Lens colour

 <p>CLOUD Grey</p> <p>Universal use. Makes your vision brighter. High elimination of reflections.</p> <p>These lenses are suitable for all weather conditions, especially then in bright light. With their soft tone they improve sight comfort in any situation.</p>	 <p>BRONZE Brown</p> <p>Sharper sight. Reduces eyestrain.</p> <p>These lenses absorb the natural blue light around us and help to sharpen the sight. The BRONZE tone was specially designed to provide greater contrast in low light conditions. These lenses help to reduce the eyestrain.</p>	 <p>PARK Green</p> <p>Makes your vision brighter. Colour brightness.</p> <p>Grey-green lenses sharpen the sight and eliminate colour distortion. They naturally block most of the blue light around us providing greater sight clarity and create beautiful colour contrast.</p>	 <p>LUNAR Orange</p> <p>Universal use. Best for sport.</p> <p>Popular colour for any sport activities because of its universality. Lets in greater spectrum of light and therefore is suitable for bright as well as for dark conditions.</p>
 <p>AMBER Yellow</p> <p>Makes your vision brighter. Ideal for cloudy weather.</p> <p>AMBER lenses increase the contrast and clarity of sight. These lenses are suitable for partly cloudy and cloudy weather.</p>	 <p>ROSE Pink</p> <p>Universal use. High sharpness and contrast.</p> <p>Truly universal lenses colour suitable for a wide range of light conditions. Pink colour maximizes the depth of sharpness and contrast.</p>	 <p>CRYSTAL Clear</p> <p>Eye protection. Ideal for cloudy weather.</p> <p>Total clarity makes it easy to see even in the darkest conditions.</p>	 <p>SKY blue</p> <p>Colour brightness. Eliminates reflections.</p> <p>Creates beautiful colour contrast, improves colour perception.</p>

OPTICAL FRAMES

Zipp

RM157

Unisex RELAX Zip frames are the ideal choice for young people looking for style and unusualness. Thanks to the adjustable temples, you can easily adapt them to your needs. The playful colours are designed for every occasion.

FLEX

Flexible FLEX hinge at the temple and frame joint makes the putting-on easier, extends glasses' lifespan and increases comfort.

FLEXIPAD

Adjustable nose pad that can be adapted to wearer's nose and that fits perfectly. Ensures better comfort.

ULTEM

Temples from lightweight ULTEM plastic are characterized by an exceptional durability, flexibility and shape stability. Glasses with these temples are very light, thermally stable and hypoallergenic.

SUN CLIP (POLARIZED)

Magnetic polarized sun clip that can be easily click on or take off at any time. Simple, practical and yet elegant solution to sunny days.

RELAX

PLATINUM LENSES

Lenses covered by a special abrasion resistant mirror layer which significantly reduces the light reaching your eyes by simply reflecting most of it. Moreover the platinum lenses are wipe resistant.

HARD CASE

Hard case for free with every pair of Relax optical frames.

CE – SAFETY PRO

Guaranteed safety of Relax optical frames.

DESIGNED IN CZ

All Relax products are developed and designed in the Czech republic.
